

## B6 – Working age people in work who would like to work more hours

**Baseline and Trends:** Baseline year – 2005. Between 2005 and 2008, the percentage of working age people in work who would like to work more hours has

- Increased from 8.3% to 9.2% amongst disabled people
- Increased from 6.9% to 7.6% amongst non disabled people

The gap between disabled and non disabled people has not significantly changed since the baseline.

### Working age people in work who would like to work more hours

**Definition:** The data covers all working age adults (males aged 16-64, females aged 16-59) who report they are in employment (including self employment) and would like to work more hours at the basic rate of pay. Respondents who report a current disability consistent with the Disability Discrimination Act are defined as disabled. Data is for Great Britain.

**Note:** All previously published Labour Force Survey figures have slightly changed due to the recent re-weighting of the survey population

**Data Source:** Labour Force Survey, Q2
